SYED HUSSAIN ALI

Frontend Developer | React & Next.js | UI/UX Design

Karachi, Pakistan | +92 314 9965593 | syedhussainalii2003@gmail.com | linkedin.com/in/syedhussainalii | github.com/syedhussainalii

PROFESSIONAL SUMMARY

Frontend-focused Computer Science undergraduate and freelance web developer with hands-on experience building responsive, component-based web and mobile applications using React.js, Next.js, and modern JavaScript (ES6+). Recently completed a UI/UX Design internship at GAO Tek, designing modern, user-centered interfaces in Figma with a focus on usability, accessibility, and responsive layouts, contributing to a real client project. Skilled at translating design systems into clean, accessible, and performant user interfaces, with a growing backend foundation in Node.js, Express, and MongoDB. Actively building a MERN-stack portfolio while seeking a Frontend/React Developer role to apply strong UI/UX instincts and modern engineering practices.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Java, Python, C#

Frontend Development: React.js, Next.js, Redux, React Router, React Hooks, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, jQuery, Responsive Web Design

Backend Development: Node.js, Express.js, PHP, REST APIs

Databases: MongoDB, MySQL, PostgreSQL, Firebase

Mobile Development: React Native, Flutter, Android Studio (Java)

UI/UX Design: Figma, Adobe XD, Adobe Illustrator, Wireframing, Prototyping, Google Stitch

Tools & Version Control: Git, GitHub, npm, Vite, VS Code

Soft Skills: Client Communication, Agile Collaboration, Problem Solving, Cross-Functional Collaboration

WORK EXPERIENCE

UI/UX Design Intern | GAO Tek Inc. *2026*

- Designed modern, user-centered interfaces and interactive prototypes in Figma for a live client project (Agro Enviro Tests), collaborating through multiple review iterations to deliver intuitive and visually consistent user experiences.
- Collaborated with the design team to refine layout, navigation, and visual hierarchy based on client and stakeholder feedback.
- Applied core UX principles including accessibility and usability best practices to improve the overall client-facing user experience.

Freelance Web Developer | Independent / Software Development Services *Jan 2023 – Present*

- Developed and maintained responsive websites and web applications for a range of clients using React.js, JavaScript, Tailwind CSS, and WordPress.
- Collaborated directly with clients to translate business requirements into functional, user-focused digital solutions, managing projects end-to-end from design through deployment.
- Conducted performance testing and debugging to improve website load times and overall user experience.
- Managed server and domain setup, database configuration, and site deployment for client projects.

PROJECTS

NewsSphere — Cross-Platform News App | *React Native, Expo, NewsAPI, YouTube Data API, SQLite*

- Built a cross-platform mobile news application integrating NewsAPI and YouTube Data API for real-time articles and video content.
- Implemented a SQLite-based bookmarking system enabling users to save and manage articles for offline access.

- Developed dark mode support and offline access to improve usability across varying network conditions.

GitHub: github.com/syedhussainalii/NewsSphere

DashSphere — Admin Dashboard | *React.js, Express.js, Material UI, React Router, Recharts*

- Engineered a responsive admin dashboard featuring user management, product management, analytics, and transaction tracking.
- Integrated Material UI, React Router, and Recharts to deliver clean navigation and interactive data visualizations.
- Structured the application with a component-based architecture to support maintainability and future scalability.

GitHub: github.com/syedhussainalii/DashSphere-Admin-Dashboard

Modern Bank Web App | *React.js, Tailwind CSS*

- Designed and built a responsive fintech website layout emphasizing UI structure, visual consistency, and mobile-first responsiveness.
- Implemented reusable Tailwind CSS components to streamline styling and maintain consistency across pages.

GitHub: github.com/syedhussainalii/bank-app-React-JS

Expense Tracker | *React.js, Context API, useReducer*

- Built a fully functional expense tracking application using React Context API and useReducer for global state management.
- Implemented dynamic balance calculation and transaction history features with an intuitive, responsive UI.

EDUCATION

Bachelor of Science in Computer Science | Karachi Institute of Economics & Technology (KIET) *Sep 2023 – Present*

Intermediate in Pre-Engineering | College of Advanced Studies (CAS) *Aug 2020 – Aug 2022*

CERTIFICATIONS

- Meta Front-End Developer Professional Certificate
- JavaScript Programming — Coursera
- Introduction to AI — LinkedIn Learning
- Generative AI — LinkedIn Learning
